K&H Truckweld has developed a line of durable flatbeds that can handle the workload you challenge them with day after day. Continuously standing as the premier manufacturer in the state of Texas, our products are left with a great finish that will enhance your company's reputation.

Guaranteed customer satisfaction is a statement we stand by. Whether it's service work or a new custom build, our customers know that they will always leave satisfied with the quality of work we provide.

From our facility located in the heart of the DFW Metroplex, we offer precision upfitting and install across all of our products. From 2-Axle trucks to Simple-18's, we at K&H guarantee that your installation will be thorough & efficient every time.

**Equipment You Need.....  
Quality You Deserve**
